

PazSalud brigada de ojos agosto 2006
Surgical Eye Brigade August 2006
Lanetta Lundberg

Closing

Our time serving on the PazSalud Surgical Eye Brigade seems surreal and a flash in the pan. I credit Sr. Eleanor and Kathy with making our time a great experience. Yes, we had a job to do and everyone rolled up their sleeves to get the job done, but we could not have managed as well as we did without the hard work, attention to detail and dedication of these two ladies. We were all impressed by the skill and grace Sr. Eleanor and Kathy manage the brigades

There is the possibility many of us will never see one another again, but for a brief moment in time we came together to serve. We danced the dance and stepped into rhythm. It was more than any of us had ever imagined. The time has come to lay my camera down and allow the memories to last a lifetime.
